This is the best clearinghouse we've used. We've used a couple different ones and by far this is the best. RealMed has never told us "no we can't do that". They have tried to come up with different ways to fix it. And normally they do come up with different , they go out of their way to come up with a fix for our solution. They've never told us "no we can't do that". They're the best customer support that we actually have here in terms of my department in bookkeeping. I call with the problem; they are quick to respond, always have the answer or always willing to help me with the problems that I do have.
