

**RealMed Ranked as 2009
'Best in KLAS' for Claims and
Clearinghouse Services.***

Make more money and get paid faster.

RealMed uses the power of the Internet to automate healthcare transactions and information exchange between providers, payers, and patients. Combined with more powerful reporting and workflow enhancements, our solutions dramatically reduce accounts receivable time and improve your cash flow.

Using real-time and batch transaction processes, RealMed helps you automate and efficiently manage the administrative tasks associated with patient registration, billing and collections, claims follow-up, and payment posting.
